SUPABORD - PAINTERS GRADE TEMPORARY FLOOR PROTECTION
SPECIFICATION SHEET

SUPA BORD®
TEMPORARY FLOOR PROTECTION

DESCRIPTION

SupaBord Painters Grade is our dependable, easy-to-manage, temporary floor protection solution, catering to the needs of both professional painters and DIY enthusiasts. From the leaders in temporary floor protection technology, SupaBord Painters Grade stands as the newest addition to our product line. SupaBord's temporary floor protection products are trusted by contractors and DIY enthusiasts across the globe, preventing the unwanted costs of damage and rework, all while delivering significant savings on both material and labour costs.

SupaBord Painters Grade strikes a perfect balance, offering a lightweight design while delivering optimal durability and strength. This product is more absorbent than traditional painter's fleece, making it the ideal solution to protect your floors and surfaces from any unwanted spills. In addition to being reusable, this product is made from 100% recycled materials, and is produced without the use of any toxins, making it fully biodegradable. Weighing only 6 kg per roll and covering an area of 20 sqm, this product can be managed with ease and is highly versatile, making it an ideal choice for safeguarding floors and other surfaces whilst painting.

FEATURES

SPILL RESIST | BREATHABLE | 100% RECYCLED | CUT & FOLD
